ALL IN READINESS FOR WORLDS SERIES TILT AT CLEVELAND

Experts Expect Question Will be Settled at Brooklyn

EXPECT EVEN BREAK AT CLEVELAND

CLEVELAND, Oct. 8.—Safely encamped upon their own reservation the Cleveland Indians, winners of the American League pennant, will renew their battle for the world series baseball honors here tomorow. The Brooklyn Nationals, conquerors of the Speaker tribe in two out of three of the eastern games are likely to find their rivals a far different combination from that which fell twice before the attacks of the Robins at Ebbets Field.

Cleveland fairly radiates confidence tonight and the Indians cannot fail to be inspired to greater baseball play by the calm assurance and backing which refuses to concede further defeat for the home team.

Cleveland and its citizens are prepared to show the baseball world what home backing and rooting will do toward uplifting the players morale and putting a winning punch into the attack of the Indians.

The world's series is an event not to be considered lightly in this section of the nited States. The honor of winning a major league pennant and the opponent to compete for championship of the baseball universe is not a club affair. It is a community and civic matter of pride and co-operation. Consequently Cleveland has seen its duty and is doing it in a manner befitting the responsibilities of the occasion.

Hotels are Swwamped.

Hotels are swamped by the rush of fans from other cities. Altho the baseball amphitheatre holds less than 30,000 spectators fully half of that number of out-of-towwn fans are here tonight. Single seats for Saturday's game were offered for sale at from fifteen into thirty-five dollars, according to location. Despite the efforts of the club officials to discourage the practice sales were readily made all this afternoon and evening in the spread between these figures.

Close followers who have viewed the battles to date express the opinion that the pennant will be won and lost back on the plains of Brooklyn. It is the opinion that the two diamond tribes are so evenly matched that wwith a fair distribution of baseball breaks, each should win an **equal number** of battles here leaving the score four games to three in favor of the Nationals.

Much is expected to depend on the manner in which the Brooklyn players react to the eal world scenes rooting which they are sure to encounter at the coming games. Cleveland rooting for her home club is certain to stimulate the Speakerites to still greater efforts.

Speaker is expected to start Coveleskie, who turned back the National Leaguers in their first rush for the championship. Manager Robinson will probably select either Jeff Pfeffer or Al Mamaux for the pitching job.

GREATEST CORN CROP IN HISTORY PROMISED IN 1920

Will Exceed the 1912 Crop by Over Ninety Million Bushels

SPRING WHEAT NOT THRESHING WELL

WASHINGTON, Oct. 8.—The 1920 corn crop promises to be the largest in the history of the country by more than ninety million bushels.

A yield of 3,216,182,000 bushels compared with the previous record production of 3,124,746,000 bushels in 1912, was forecast today by the department of agriculture fro ma condition of 89.1 on October 1. The yield would exceed that of last year by practically 300,000,000 bushels.

Kansas, Nebraska and Missouri will contribute practically all of the increase.

Spring wheat is threshing out more poorly than had been forecast. Damage principally from rust has proved greater than anticipated. The yield was estimated today at 19,000,000 bushels less than was forcast a month ago loss reducing the combined winter and spring wheat yield to 750,648,000 bushels about 180,000,000 bushels below the big crop of last year.

Threshings of oats confirm the early forecast the indicated yield being 1,444,362,000 bushels almost 200,000,000 bushels more than last year's yield.

Altho the tobacco crop showed a loss during September of 75,000,000 pounds in the expected yield, the forecast of 1,478,788,000 pounds is 89,000,000 pounds larger than last year's production.

A bountiful crop of potatoes also was forecast, the yield being estimated at 414,968,000 bushels, an increase of 2,053,000 bushels.

SAYS COX PUT MONEY IN BAG AND TOOK IT AWAY WITH HIM

Strenuous Objections to Testimony by Sen. Pomerene

SAYS WANT TO INJURE GOVERNOR COX

DAYTON, O., Oct. 8.—The senate sub-committee composed of Senators Pomerene, Democrat, Ohio, and Edge, Republican, New Jersey, today concluded its investigation of the circumstances surrounding the giving of a $5,000 note by Governor Cox, Democratic presidential candidate to a local bank in August, 1917 and payment of the note by the Dayton Metal Products Company June 1918.

Testimony of Clarence Keifer, who was vice president of the City National Bank of Dayton which discounted the note was that "he thought he had paid the proceeds of the note to Clarence N. Greer, chairman of the Montgomery county Democratic committee.

Greer testified that he had received a $5,000 certificate of deposit from the City Trust and Savings Bank, a bank interlocking with the City Natonal Bank the day following and that he used to to pay expenses incurred by the Democratic committee in conducting its primary campaign for the nomination of candidates for the city commissioners.

Concerning the delivery of the proceeds of the Governor Cox note Marvyn Scudder, New York accountant, testfied that during the Hughes aircraft investigation he had talked with Keifer concerning the payment of the note and that Keifer had told him "I paid the money to Governor Cox and he put it in a bag and took it away with him."

Objects to Testimony

This testimony of Scudder's was strenuously objected to by Senator Pomerene. Senator Pomerene issued a statement in which he declared that certain witnesses who had been connected with the Hughes aircraft investigations and others had demonstrated that they were more interested in besmirching Governor Cox than in ascertaining the truth.

He also declared that the entire investigation here had shed no light on presidential campaign which was the prmary purposes for contributions, investigation of which the committee had been appointed.

Senator Edge issued a statement in which he said:

"I do not care to discuss the things that have been made clear before the committee. We have clearly established there has been violation of the corrupt practices act of Ohio and irregular proceedings in the Cox campaigns of the past."

"AMERICA AND AMERICA ONLY" IS HARDING CREED

This Accusation Made By Governor Cox

THIRTEEN SPEECHES IN KENTUCKY

LOUISVILLE, Ky., Oct 8.—Scathing attack was made here tonight by Governor Cox of Ohio upon the recent league pronouncements of Senator Harding his Republican opponent. Senator Harding's creed, the Democatic presidential candidate declared in an address here closing his Kentucky campaign, was forced "under pressure of a threat from Senator Borah" and is "America and America only."

"To preach such a gospel of selfishness is an offense to the decency of America," said Governor Cox, citing humanitarian and commercial and other world relationships.

"Such a proclamation of provincialism is a little short of treason to our traditions.

"If we accept the preachments of the prophet of Maion," Governor Cox continued, "we might just as well make out declaration of independence a scrap of paper, we might just as well burn all our great Americans, past and present in effigy."

Asks Taft to Speak Out.

In view of Senator Harding's stand against the present league, Governor Cox asked whether former President Taft and other Republicans favoring American membership would continue supporting Mr. Harding. The governor also asked whether "Judge Taft's candidate is giving him an entirely different assurance" from his speeches and requested Mr. Taft to tell "in front of the curtain what is going on behind."

The governor's address here to several thousanl persons in a religious revival tabernacle closed a strenuous day's campaigning in which he delivered thirteen speeches across Kentucky. In virtually all he preached the league of nations and progressivism and flayed the "senatorial oligarchy."

In his opening speech this morning at Paducah, he reiterated that the oligarchy was seeking to annex the presidency and also said that a "great menace, next to scrapping of the league" was the appointment soon to vacancies on the United States supreme court.

Regarding Senator Harding's position the governor said to his audience tonight:

America Only Harding Creed.

"Uuler the pressure of threat from Senator Borah, the senatorial candidate for the presidency is now out in the open and his creed is 'America and America only.' To use his words, 'we must consecrate ourselves to the welfare of America and not to the rest of the world.'

"If we are to live commercially, we have to trade with others. If we are to cut our products to our own consumption the mere adoption of that policy would carry us back fifty years industrially. But there is something more than the practical side.

Are we to close our souls against every thought of sympathy and help and leadership? Can we deny the league of nations which brings an end to expensive armaments, establishes credit and permits people who are willing to work to have bread?

"Does not physical isolation mean moral isolation? The acceptance of the creed of the senatorial candidate is little less than a notice to America to close our churches, our schools and our universities, to think only of self, to deny the soul any right.

SENATE MEMBERS FILLED WITH ENVY AND PARTISAN HATRED

This Charge is Made by Secretary of War Baker

REPRESENTS ARISTOCRACY IN GOVERNMENT

BOSTON, Oct. 8.—Secretary of War Baker in an address here tonight charged the Republican party under Senator Lodge's leadership with adopting its position on the league of nations from that of the late Count von Hertling former imperial German chancellor, who in January, 1918, said:

The German government is gladly ready when all other pend pending questions have ben settled to begin the examination of a basis for a bond or league of nations.

"This hard material and mediaeval position os strangely at variance with the enlightened idealism of America during the war," Mr. Baker added. "By this position were to be idealistic, unselfish and helpful to mankind while the war lasted, but at its conclusion to play safe without own special interests.

PROBABLY WILL REJECT NEW PLAN

German Reparation Plan Much the Same as Offered at Spa Conference — Would Exchange Views With France.

Paris, Oct. 8.—(By The Associated Press.)—At the ministry of foreign affairs today the correspondent of The Associated Press was informed that the new German proposition with regard to reparations is very much the same as that presented at the Spa conference and that it probably will be rejected. This German plan includes the rebuilding of the devastated regions of France by a German syndicate over which France would have no control and thru which it is believed Germany would profit materially.

It was also the impression of the foreign office that the note of Earl Curzon, the British foreign secretary asking about the projected Geneva conference will receive a firm answer explaining that France does not think the time opportune for such a meeting.

Regarding Germany's recent request for an exchange of views between French and German delegates, France in all probability will refuse this on the ground that none of the suggestions put forward by Germany is worthy of such intimate formal examination it was said.

PREACHES DOCTRINE OF AMERICA FIRST AT KANSAS CITY

Says United States Owes Great Debt to Jim Reed

MAKES ANSWER TO PRESIDENT WILSON

KANSAS CITY, Mo., Oct. 8.—A day of militant campaigning against the Paris league of nations was closed by Senator Harding tonight with a speech in Kansas City replying to the appeal fro league support.

The convention hall, was packed long before the candidate appeared hundreds standing in the aisles so that the great throng presented an unbroken sea of faces. When Senator Harding came in the crowd stood and cheered for more than six minutes. The senator was pdesented and began his speech by saying that he had become convinced that you love America more than you love the league."

After another burst of applase he added:

"I'm willing to leave it to you whether you prefer the constitution or the covenant. I have come to you to preach the Republican doctrine according to the text of 'America iFrst.'"

Tribute to Jim Reed.

Responding to some one in the crowd, who called for his opinion of Senator Reed, a bitter opponent of the league, Senator Harding said, "he's a Democrat and I'm a Republican, but the United States of America owes a debt it can never pay Jim Reed. I like a man who is an American before he's partisan."

In a digression from his discussion of the league the candidate declared his belief that the nation ought to show its gratitude to former service men. "in the most substantial way that's possible."

"America has never failed to take care of its defenders," he said, "and America isn't going to fail them now."

In a plea for business stability and development of home markets, Senator Harding said that altho the federal reserve act was passed under a Democratic administration a Republican sentiment developing for years should have a great deal of credit.

Answering the president's declaration that the league would not take from congress the power to declare war, the Republican nominee pronounced the obligations of Article so clear and unmistakable that congress would be compelled to fulfill them or bring dishonor on the nation.

Article X bort the brunt of the candidate's attack in the address here, but during the day in other Iowa and Missouri cities he aired his blows at many other parts of the vovenant. The whole scheme he characterized as a "militaristic" alliance which in actual operation in Europe had shown itself not worth a "continental."

In other speeches he assailed the covenant's proivisions on the Monroe Doctrine, voting power in tthe league, the withdrawal privilege and labor. Stressing the labor feature in a talk to packing house employes at South St. Joseph, he declared he wanted no covenant that would drag American labor standards down to those of the old world. The nominee cited the invasion of Poland as an example o fthe complications into which he said the United States easily could be drawn under Article X.

Quote President Wilson

"The statement which the president made the country a day or two ago," said Mr. Harding, "emphasizes his inflexible determination to secure the adherence of the United States to the league precisely as the covenant is written. In the president's statement the people are told that the elections are to be a genuine national referendum and they are to instruct their own government what they wish done.

"So far as the league is concerned he says the question which their vote will answer is—do they wish the treaty of Versailles ratified and do they—'in particular approge of the league of nations as organized and empowered in that treaty?'

"Those who oppose the treaty in its present form are charged with 'gross ignorance and impatient audacity.' He tells the people tha tthere is nothing in the coveant which interferes with or impairs the right of congress to declare war to its own independent judgment as the constitution provides.

"The fallacy of this position has been exposed again and again. Article X in words of the utmost precision binds us to an obligation which under certain easly foreseable circumstances will require the use of armed forces. It is true that the constitution invests in congress with the sole power to declare war, but if war shall become necessary in order to fulfill these or any other treaty provision congress must either declare war or repudiate the obligation.

It is perfectly proper for Republicans to throw the search light on the President's numerous says while in Paris.

Major General P. C. Harris, the Adjutant General of the Army, announces the selection and appointment of 89 new chaplains for the Regular Army out of 300 applicants who had served as officers thruout the war. This is in conformity with the new Reorganization Law, providing for 240 chaplians or one to each 1,200 officers and men.

Democrats seem to depend upon quarrels and divisions in the Republican ranks, more than upon their own ability to win the confidence of voters. They should note the harmony meeting in Springfield tonight.

The selection of Mrs. Helen Griggsby, of Pittsfield, as one of the candidates of the Republican party for trustee of the University of Illinois, is a most satisfactory one. Mrs. Griggsby is the daughter of Mr. and Mrs. F. M. Lewis and a granddaughter of Mrs. A. C. Matthew, her grandfather being the late Col. Asa C. Matthews. She is a lady of pleasing appearance and high attainments and splendidly fitted for the duties of the position.

AMERICA FIRST.

Altho Senator Harding is criticised for his conservatism by those who wish America to assume her station in world affairs. He cannot but be respected by all. He spoke from the heart the other day when he said: "I would a thousand times rather lose the Presidency and be conscious that I have done something for America and American institutions than gain the Presidency thru any word or deed that might weaken faith at home or abroad in our free institutions or injure the quality of American manhood.' The American people may place implicit confidence in a man who thinks and speaks in those terms. He does not assume to be all-wise but he is at least all-willing. He is willing to listen, to take counsel and then to take judgment as his conscience shall declare.

STIMULATING PRODUCTION.

Says the Indianapolis News:

Of the total population of continental United States estimated at 105,768,100, the census bureau says that 54,796,100 are living in cities and 50,972,000 in country districts. The population has increased about 15 per cent in the last decade and the cities will absorb about all of it. Ten years ago there were 7,000,000 more people in rural than in the urban sections.

While this shift from the country to the city has been going on, food production has increased. Four and one-half bushels of wheat will make one barrel of flour and one barrel of flour will make 280 loaves of bread, if a farmer has forty acres in wheat and his crop makes fifteen bushels to the acre he has raised enough to produce about 42,000 loaves of bread. Improved farm machinery is helping solve the farm problem and production of foodstuffs is far easier than it used to be. With such machinery one farmer can do more work than a dozen formerly were able to do.

PLAY SAFE.

"It is certain that if the league of nations had been in existence we would never have gained our independence," declares Senator Miles Poindexter, chairman of the Republican Senatorial Committee, in a recent interview urging the election of a Republican majority in the United States Senate. "We have fought four wars with European nations to prevent the control of American affairs by Europe and won them all. Don't let us now commit the supreme folly and the supreme sacrifice of voluntarily surrendering our independence and separate station in the world, which we have won.'

After recalling President Wilson's representation to European and Asiastic nations that he was authorized by the people of the United States to commit them to the "supreme sacrifice" of giving up our separate national fortunes and "joining our fortunes with the fortunes of men everywhere."

Senator Poindexter declares that the President was not so authorized is to be determined in the coming election.

"One vote may determine the fate of the nation. The election of one Democratic Senator pledged to follow his party in the sacrifice of his country may unite us in governmental union with Europe and Asia and by the election of a Republican Senator in any one State pledged to oppose this sacrifice our independence and the chief hope of the world for liberty and peace may be preserved. The Senate is the High Court of final decision and the action of the Senate may be determined by a single vote. In the face of this issue we can not afford to allow personal preferences, if they exist, to override principle. The consequences are too vital.

Enumerating instances in which the Democratic party, under its present leadership has proposed the surrender of American national rights, Senator Poindexter says, "In the process of supreme sacrifice the Democratic party has repudiated its solemn pledge and internationalized the Panama Canal, denying our people any greater privileges in the Canal they had built than those enjoyed by other nations that never contributed a dollar nor owned a foot of its soil." As a further step in this process of "joining our fortunes with the fortunes of men everywhere," the President proposed the removal of economic barriers which applied as stated would open our ports as he has opened the Canal to foreign goods on the same terms as our own. It is a process of destruction and well denominated by him a "supreme sacrifice."

Senator Poindexter also declares his opposition to American participation in mandates by which a military government would be imposed upon Mesopotamia and Syria. He favors the promotion of disarmament and the preservation of peace, but asserts that if disarmament can be brought about it will be by friendly agreement, as with Canada, and not by a military league as established at Paris. Relative to the preservation of peace he says, "If the future peace of the world is to be encouraged it will be by the codification of international law and the establishment of a court of law judges to which the nations, in a free association, will submit disputes. Only war will come from the setting up of a centralized military power, which by its assembly, exercising, as the President has said, 'the major forces of mankind' will subject the world to an unscrupulous and irresponsible political and military despotism. The Democratic party will deny that such a power will be unscrupulous or despotic. The history of the world proves that it will be.'

Because the contest for control of the Senate is a close one and the result may hinge upon the outcome in any one of several States, Senator Poindexter urges all believers in "America First" and the preservation of national independence to support only Republican candidates for the Senate.

The Fat Sufferer.

The fat man sickens and like the dickens his tortured system feels, he has the glanders and yaller janders and gout in both his heels. When convalescent, his woes senescent, he'd like to tell the tale of ailments gaudy that racked his body, and make his hearers pale.He'd fain be spieling his blood congealing pain epic by the week; but none will listen, no teardrops glisten on sympathetic cheek. And when he pauses, for any causes, he hears some horselaugh sounds; his yarn seems yellow, for he's a fellow who weighs two hundred pounds. He may have verses from docs and nurses to prove diseases three; it doesn't matter—the man is fatter than sick folk ought to be. We grin and snipper when he would whimper his doleful sickbed tunes; we mark his figure and snort and snigger and say he's full of prunes. If he were slender, with pity tender wed mix our tears with his; we'd hear him twitter of ordeals bitter, and sigh, and say, "Gee whiz!" But he is fatter than any hatter or plumber in this town; so when he'd babble and idly gabble, we promptly turn him down.

STATE POLICE PLAN FAVORED BY A. H. T. A.

RESOLUTION TO THIS EFFECT ADOPTED AT STATE MEETING

Association Also Believes Two-Thirds Vote Should Rule Jury in Criminal Cases—Next Annual Session is Springfield.

The state convention of the Anti-Horse Thief association convened at the Knights of Columbus hall on East State street at 10:30 a. m. Friday. The meeting was called to order by President Abbot Laugh who appointed committees on credentials and resolutions. The invocation was by Rev. D. V. Goudy. Springfield was selected at the afternoon session as the next place of meeting.

President Laugh introduced Edgar E. Crabtree, mayor of Jacksonville, who made the address of welcome. Mayor Crabtree told the delegates that Jacksonville wanted them to feel at home and that he hoped they would return again. He said that he was glad to see so much loyalty and cooperation in the order, adding that these principles were needed now as never before.

Mr. Crabtree also spoke on the state constabulary. He said he thought the order should get behind the movement and see that the next legislature adopted the plan.

Dr. W. L. Montgomery of Blue Island responded to the address of welcome and said that Jacksonville had certainly lived up to her reputation for taking care of visitors.

States Attorney Carl E. Robinson made the principal address at the morning session. He said that the time had arived for some changes in the criminal code of the State of Illinois. He said that no change had been made in the criminal code of Illinois since 1874.

Changes Needed.

Mr. Robinson said that some action should be taken to protect the individual against whom a crime had been committed, so that criminals could be promptly be arrested and speedily tried before a jury of men who believe in law enforcement, so that justice could be meted out. Mr. Robinson explained the present system with the grand jury meeting once every six months, that witnesses sometime leave the jurisdiction of the court and he thought that the laws should be so fixed that a man could be brought to a speedy trial while the facts of the case were fresh in the memory of the witnesses. He said he saw no reason why a verdict should be reached by unanimous vote. He cited that the constitution of the United States could be amended by a three-fourths majority and that decisions of the United States supreme court were reached by a majority.

Henry J. Rodgers, spoke at length on the state constabulary. He said that in Pennsylvania the plan had worked out successfully and that out of 10,000 arrests made by the state police, 9,500 convictions had been secured.

At the afternoon session the convention adopted several resolutions, one thanking Mayor Crabtree, Mr. Rodgers and Mr. Robinson for their talks and the members of Jacksonville Lodge No. 158 for their banquet and automobile ride about the city. The members were taken in 27 cars about the city, visiting the state institutions, Mauvaisterre Lake and Nichols Park.

Resolutions Adopted.

Another resolution favored the state constabulary plan and a resolution was introduced asking the legislature to pass a law prohibing anyone from camping in front of a church, school house, cemetery or within 300 feet of a residence without first securing permission from the owner.

A resolution was adopted empowering the state officials to appoint a competent attorney to go before the constitutional convention and urge the enactment of a law requiring only two-thirds vote of a jury in a criminal case to reach a verdict.

Beardstown and Springfield were candidates for the 1921 convention, Springfield winning by an overwhelming vote.

One feature of the afternoon session was the return of a watch to a delegate from Christian county. The member lost his watch sometime during the day, but one of the members announced that he had found a time-piece and it was returned to the member.

New Officers Named.

Secretary S. M. Holben of Edinburg announced that five new lodges had been instituted during the year and that the membership of the state organization was growing rapidly, having a membership of 4483 members with eleeny lodges to hear from.

The following officers were elected:

President—J. L. Montgomery, Blue Mound, Ill.

Vice-president—M. A. Holben, Stonington, Ill.

Secretary—S. M. Holben, Edinburg, Ill., (re-elected).

Treasurer—John S. Felmey, Griggsville, Ill. (re-elected).

Marshal—William Temmenes, Morrisonville, Ill.

Executive committee—J. M. Pence, Morrisonville; E. J. Cocagne, Assumption and C. A. Rowe, Jacksonville.

The delegates to the national convention are: Charles S. Black, Jacksonville; John G. Hill, Taylorville; G. W. Robinson, Macon; Louis Keeler, Assumption; J. L. Montgomery, Blue Mound and S. M. Holben, Edinburg.

JULES FALK IN BRILLIANT RECITAL

Noted Violinist Pleases Large Audience—Ably Assisted by Miss Edith Robinson and Willard Wesner.

Jules Falk, violinist, gave a recital in Music Hall at the college of Music Illinois Woman's college Friday evening.

A large audience of Jacksonville's music lovers gathered to hear the program and was most enthusiastic in its reception of the violinist.

Mr. Falk had appeared here before so was not unknown to local audiences. His program was a varied one and served to show his mastery of the violin.

Several of the numbers revealed to good advantage Mr. Falk's splendid technique but it is the haunting soulful quality of his playing that appeals, and which one carries away with the feeling that one has herd a real artist.

Undoubtedly Mr. Falk's art broadens as the years pass. He has arrived and today it may be said of him that he is one of the world's greatest violinists.

Miss Edith Robinson pianist and Mr. Willard Wesner accompanist assisted in the progam. Both are well known to local audiences and further enhanced their reputations by their work Friday evening.

The recital was given under the personal supervision of Mrs. Helen Brown Read. She is endeavoring to give Jacksonville some of the best in things musical and the concert of last night is a most auspicious beginning. It is to be hoped the patronage was such that she will feel justified in bringing other artists to the city.

does more than insure a smooth, perfect fit and save time and trouble in dressing and undressing. It eliminates a whole row of nine or more buttons and buttonholes—buttons that fall off and buttonholes that rip and tear. Even if this one securely fastened button should work loose, there is an extra buttonhole into which an ordinary collar button can be slipped as a temporary or even permanent measure.

This splendidly made garment comes in a wide variety of weights, materials and prices. We'd like to have you come in to-day and see our stock.

Daily Market Report

DUNN'S REPORT WILL SAY

NEW YORK, Oct. 8.—Dun's tomorrow will say:

"Price considerations still dominate the commercial situation and remain the underlying cause of the continued hesitation and repression of business. Belief that the downward price reaction has not yet been completed. impels many buyers to persist in their policy of waiting.

"Knowledge that the year's crops are abundant makes for a confident long rang view of the future but problems of the present readjustment period are of immediate concern to many interests. The nine months failures, altho comparing favorably in number with those of many years prior to 1919, plainly reflect the changed conditions prevailing and other evidence is not lacking that the weak spots are steadily coming to the surface after an era of unwholesome inflation. STOCK MARKET UNDER PRESSURE

NEW YORK, Oct. 8.—The Stock market was under pressure almost from the outset of today's session, the shorts carrying their aggressive maneuvering to greater lengths than any of the preceding days of the week.

In their fairly successful tactics the professional element was assisted by abstention of public interest and prospects of stiffer money rates.

The latter probability was foreshadowed by the course of cal or demand loans which opened at 7½ per cent, the maximum renewal quotation of the week rising to 8 per cent in the early afternoon and holding at that figure until within a few minutes of the close when it lapsed to the initial rates.

Rails ignored the reactionary trend for a time but fell back in the latter part of the session.

Sales amounted to 675,000 shares.

Exchange on London was at its highest quotation of the week and Italian rate also made further recovery from its low record of a few days ago, other remittances showing no material alteration.

All classes of bonds, foreign and domestic including liberties wer inclined to ease slightly. Total sales, par value, $15,850,000.

Old U. S. bonds wer unchanged on call.

WHEAT MAKES ANOTHER DROP

CHICAGO, Oct. 8.—Wheat went sharply lower in price today with pressure heavy from the big Canadian surplus and with reports conflicting as to domestic offerings. The market closed unsettled at 4½c to 6c net decline, with December $1.93½ to $1.94 and March $1.90¾ to $1.91. Corn lost 1⅛c to 4½c and oats ⅝c to ¾c. In provisions, the outcome ranged from 35c net back to 27c advance.

Bears had the advantage in the wheat market thruout the day. Slowness of export demand for United States wheat counted as a depressing factor.

The government crop report showing a material decrease in the spring wheat estimate came after trading was at an end.

Corn and oats gave way with wheat, December corn reaching the lowest price yet this season.

Altho advancing at first owing to an upturn in the high market, provisions alter were weakened by the action of grain.

Literberry, Oct. 8.—Miss Georgia Liter entertained members of the Clio circle of the Christion church Friday afternoon at the home of Mrs. Harry Martin. MARKINK OCEAN TO OCEAN HIGHWAY

J. W. Skinner has been busy for several days marking the Ocean to Ocean highway thru Jacksonville This is the red and white trail. Numerous complaints had been made because the trail markings eneded at the city limits on both the east and west sides, and tourists were left in doubt as to how to proceed after reaching the city.

The trail comes in on the Morton road to South Main street, thenc enort hto the square and west to State street; west on State street to Webster avenue, north to Lafayette avenue, thence west and north.

The new markings extend from the city limits on the east to a turn in the Chapin road about 200 yards south of the Kinman school house, formerly known as the Little Brick.

Remember the farmers' institute, Franklin, Oct. 15 and 16.

WHY PAY MORE?

Does Your Neighbor Know? That--

The Passavant Memorial Hospital association of Jacksonville, maintains and operates what is known as the Free Bed Fund. This fund was originally started by the ladies of the community having been raised through a tag day subscription. These subscriptions varied in amounts during the different years which they were taken up.

Patients are admitted on this fund in the following ways:

Patients in the county who feel that they are not financially able at the time of their sickness to pay their way in the hospital can be put on this fund by being recommended to the hospital by their pastor and their physician or by the overseer of the poor and their physician. In being admitted to the use of free bed, they agree to reimburse the hospital for all charges against them before the physician receives a penny in return for his services, and the physician agrees to this and knows of it before he permits the patient to go on this fund.

In many cases patients have been admitted and have paid back part of the charges against them which has been returned to the original Free Bed Fund, for the use of some other worthy sick. In many cases patients have been unable to return any of the money charged them for services at the hospital; in this case the matter is forgotten and the fund is depleted to the extent of their bill.

In former years, many more were put on this fund than have been lately. During 1919 there were only six patients admitted to the hospital on this fund and the charges against them amounted to $130.00. None of this amount has been returned to this fund.

Tehre were thirty-two patients admitted to the hospital who contracted bills to the amount of $1300.00 and none of these patients ever have paid one cent of the charges against them.

There were thirty-three patients admitted to the hospital on what is known as "Part pay patients." These patients contracted bills amounting to $2500.00 and repaid $1600.00.

There were forty-four patients admitted to the hospital for a period of one-hundred and thirty-nine weeks at a loss of $6.88 per week per patient.

All the above class of patients are known as charity cases and the amount of bills contracted by these patients and not paid, is charged off by the hospital as charity.

PITTSFIELD HIGH PLAYS JACKSONVILLE

Pike County Team Here For Local Tilt—Visitors Have Strong Lineup.

Jacksonville plays the strong Pittsfield high school team on Illinois field this afternoon.

The visitors come with three victories to their credit. The Pike county team this year is made up of veterans and is easily one of the strongest teams in the central part of the state.

Last Saturday the team ran up a score of 59 points on Virden high, while their defensive work kept Virden from scoring. She also defeated Roodhouse 19 to 0.

Coach Mitchell has been drilling his men hard the past week. They all came out of the Hannibal game in good shape and with the experience gained against the Missouri team should give Pittsfield a strong argument.

Mitchell's team is improving fast and if no had luck befalls it, should be one of the best teams in this part part of the state. Alexander is improving in his running of the team and is without doubt one of the best high school kickers in these parts.

The game this afternoon will start at 2:30 o'clock. If John Larson is in the city he will be the referee. It is not known at this time who the other officials will be.

The Jacksonville lineup follows: Lewis, le; Gard, lt; G. Cockrn, lg; Hackett, c; E. Arnold, rg; Bray, rt; Reynolds, re; Alexander, qb; Hunt, lh; H. Cockin, rh; Arter, fb.

Mr. Gibson was born in Tennessee on Feb. 1, 1823. In his younger days he was a resident of Morgan county, removing to Macoupin county more than half a century ago. In early manhood he was united in marriage to Miss Nancy J. Daugherty, whose death occurred ten years since. They were the parents of fourteen children, twelve of whom grew to maturity. Surviving are Mrs. Serilda Gates, Mrs. Sarah Garst, Mrs. Lizzie Stowe, Henry and George Gibson, all of Girard; Cullen Gibson, Springfield; Isaac Gibson, Pawnee, Ill.; John Gibson, Greenfield; Mrs. Rinda Showalter, McPherson, Kans.; Mrs. Hannah Wirt, Virden. There are also surviving a number of grandchildren, great grandchildren, and great great grandchildren.

The deceased was for forty-five years pastor of the United Brethren church near Girard, retiring from that work and from his farming activities only when the infirmities of age came upon him. He retained his mental and physical powers to a remarkable degree and on his ninety-seventh birthday walked to the Sunday school and made a talk to the children assembled there.

Funeral services will be held at 2 o'clock Sunday afternoon from the Pleasant Hill church, of which the deceased was for years pastor. Among Jacksonville people who will attend will be Mr. and Mrs. J. F. Self and family, Mr. and Mrs. James Tike, James Gibson, Mrs. J. W. Moon, and Mrs. Julia Mansfield, all relatives of the deceased.

ROTARIANS HEARD RADICAL SPEAKER

Minneapolis Man However Later Proved to be Advocate of Americanism—H. A. Perrin Reported on State Community Conference.

Members of the Rotary club held the weekly luncheon at Central Christian church Friday noon. C. E. Swayza of Minneapolis, a radical of the radicals, made an address. However, before the final word was spoken it developed that Mr. Swayze was not really an extremist but was presenting a talk on Americanization. H. A. Perrin, who was a delegate from the club to the state community conference, made a report indicating that themes of large importance were presented for the consideration of the delegates. One of the guests of the day was W. H. Rodmyers, presidet of the Banner Buggy Co., of St. Louis.

Mr. Swayze presnted one of the best "stunts" on the Rotary calender. Before the visitor entered the room President Pontius read a statement from the chief of police indicating that a radical speaker who had been stopped from a street corner talk, had asked permission to appear before the club for a brief talk. Altho there were some members who denfurred, Swayze immediately appeared from an anteroom ,accompanied by Chief of Police Kiloran. He was released from handcuffs and hat in hand, proceeded to a vehement tirade against capital and employers.

When one of the members could stand it no longer, he made a motion that Swayze be silenced and the club proceed with the regular order of business. The chairman ruled that he would give the speauker one minute more, and in that period the speaker pulled off his disguise and was introduced as Mr. Swayze of Minneapolis, an advocate of Americanism who is appearing before Rotary clubs and chambers of comerce in all parts of the country. Only two members of the club were in the secret and all the rest of them were fooled by the radical speaker.

Mr. Perrin discussed in a very interesting vein some of the subjects presented at the great community conference held in Champaign. One of the important points brought out in relation to city development was that the old theory of paying bonuses to manufacturing concerns in order to bring them to certain cities has been exploded. The only right plan is for a city to put itself into such condition from housing, sanitary and other standpoints, that it will be attractive to employing concerns.

The program at the conference presented a great diversity of subjects, relating to civic, educational and religious development. One of the matters discussed was the extension of school districts in accordance with the present Illinois law. Dr Black said he had been interested in this law for some time past and made a motion that a committee of five be appointed by the president to consider the provisions of the law and the possibilities or advantages of having the Jacksonville school district combined with others into one larger district.

The Parent-Teacher association of the David Prince school held a meeting Friday night at the school, with a large attendnace. Mrs. A. B. Williamson, vice president, presided and Mrs. J. W. Brown was the secretary. The program opened with a group of songs by eighth grade pupils. Then Rev. J. F. Langton was introduced for an address on "Home Life in the Far East." Mr. Langton, who spent many years in the far east, can speak with authority and his address was full of interesting information. He talked upon religious, home and educational phases of life over there, and the presentation was such that all in the audience were glad to remember that they are residents of the U. S. instead of the country described.

Supt. Perrin and Miss Laura White, principal of the eighth grade, made short talks on subjects relating to the work of the schools and the association. A social hour with refreshments followed.
